

Assistant Professor in Quantitative Methods and Computational Psychology, University of Southern California

The Department of Psychology's Quantitative Methods and Computational Psychology area within the Dornsife College of Letters, Arts and Sciences at the University of Southern California welcomes applicants for a tenure track position with the rank of Assistant Professor. In particular, we seek applicants with strong research programs in quantitative and computational methods, broadly defined, particularly in one or more of the following areas: 1. Psychometrics /measurement, 2. Machine learning and causal reasoning, 3. Statistical and computational methods for experimental and quasi-experimental design. Successful candidates should have methodological specialization of broad application and expertise that complements other areas in the Department.

The appointment is expected to begin in August 2024. Candidates must have completed their Ph.D. and demonstrate an excellent doctoral and/or post-doctoral record that includes a strong track record of publications and potential to secure extramural funding. The department aims to foster a diverse intellectual community and strongly encourages applications from all underrepresented groups.

Applicants should submit a cover letter; current CV; representative publications; and a list of three to five names who can provide letters of references; and separate statements describing their research, teaching, and a service statement that highlights contributions to equity, diversity, and inclusion. In order to be considered for this position, applicants are required to submit an electronic USC application; follow this job link or paste in a browser: <https://usccareers.usc.edu/job/los-angeles/assistant-professor-in-quantitative-methods-and-computational-psychology/1209/54627205408> .

For questions related to the search, please contact Richard John, richardj@usc.edu. **We encourage candidates to apply by October 15th for full consideration.** More information about the program at USC can be found at the following website: <https://dornsife.usc.edu/psyc/>.

The annual base salary range for this position is \$109,250 - \$115,300. When extending an offer of employment, the University of Southern California considers factors such as (but not limited to) the scope and responsibilities of the position, the candidate's work experience, education/training, key skills, internal peer equity, federal, state and local laws, contractual stipulations, grant funding, as well as external market and organizational considerations.

USC is an equal-opportunity educator and employer, proudly pluralistic and firmly committed to providing equal opportunity for outstanding persons of every race, gender, creed and background. The university particularly encourages members of underrepresented groups, veterans and individuals with disabilities to apply. USC will make reasonable accommodations for qualified individuals with known disabilities unless doing so would result in an undue hardship. Further information is available by contacting uschr@usc.edu.
