

Assistant Professor in Statistics

The Fariborz Maseeh Department of Mathematics and Statistics at Portland State University invites applications for a position in Statistics at the level of Assistant Professor.

A Ph.D. in Statistics or a related area is required by September 15, 2019. We are seeking highly qualified candidates who have demonstrated excellence in research and teaching in statistics. The successful applicant will be expected to collaborate with researchers in other departments and institutes with preference given to those that would collaborate with Social Scientists.

Applicants should have a commitment to both undergraduate and graduate education. Further expectations include taking an active role in matters of departmental governance and sharing in the leadership of statistics research and education at PSU.

Portland is consistently ranked as one of the world's most livable cities, and Portland State University has an established record of excellence in research, teaching, community outreach, and sustainability. Please see <http://www.pdx.edu> for more details.

The Fariborz Maseeh Department of Mathematics and Statistics is part of the College of Liberal Arts and Sciences and is a premier provider of graduate education and training in Mathematics, Statistics, and Mathematics Education in the Portland metropolitan area. The Department has a thriving MS program in Statistics and an established and growing Ph.D. in Mathematical Sciences with specialization in Statistics.
